

ROSEBERY REVIVAL

The past few years have seen Rosebery rise in the ranks to become a hip haven for food and design lovers. By Christine Knight.

THE ONCE INDUSTRIAL SUBURB of Rosebery has quietly been on the receiving end of a makeover, transforming what was once an area known for factories and warehouses into a must-visit destination for food and homewares. The centre of this hip new area is the heritage-listed Cannery building, creatively reimagined as a hub for dining and shopping. Here you will find delectable food and art homewares, making it an increasingly popular destination for weekend outings.
